THE BRITISH COLUMBIAN.

NO. 44. VOL. 8.] N[EW] WESTMINSTER, WEDNESDAY, JULY 15, 1868. [PRICE 6d. or 12 cts.

The British Columbian.

WEDNESDAY, JULY 15, 1868.

WHAT A PITY!

It does really seem too bad that a country like British Columbia, blessed with a salubrious climate, fertile soil, magnificent sea-board and inland water system, inexhaustible fisheries, invaluable forests, boundless coal-fields, and unexplored deposits of gold, silver, copper and other mineral substances of lesser value, should have been allowed to pass into the tenth year of its Colonial existence with a white population counting little more than a thousand to each year which goes to make up the first decade of its history. This circumstance is as much matter of surprise as it is cause of regret. When one looks around at other countries and other communities, and compares the advantages possessed by this country, and the balance of chances it presents for the speedy accumulation of wealth, when one sees in California the restless and unemployed thousands who find there no resting place for the soles of their feet; above all, when one recollects the unemployed, unclad and unfed millions of the old country it appears not only inexplicably strange but absolutely wicked, that this gorgeous country should be literally "running to weeds" for want of population. "This is all very fine theoretically," says one, "but what could poor immigrants do here?" Do? Who so poor as not to be able to grow potatoes, where soil, without a twig on it, invites the seed? Who so feckless as not catch his keep of fish, where the waters are so full of them that they crowd each other upon the beach? The farmers in the interior, we are assured, look in vain for help at $75 a month "and found." Everybody not absolutely too proud, too lazy or too besotted to work, is employed. Delicate ladies, accustomed only to command, are compelled to do the menial work of their household, because housemaids cannot be had at any price. Respectable and well-to do men approach the meridian of life without anyone to share their joys and sorrows or sew on their loosened buttons, with the prospect of having no one to inherit the accumulations of their toil, simply because there are no wives to be had. One naturally looks for the cause of this anomalous condition. What is it? The Victoria press would very likely point to the Governor, as the procuring cause of this, in common with all the other ills we bear. Others would say and with more show of reason, too, the *Government*. That the Government is largely responsible it cannot be successfully controverted. While other colonies, less in need than we, are industriously using the ordinary means to bring population, and yearly sparing large sums from the public revenue to defray the expense, what has been done by our Government? Has it ever assisted directly or indirectly, to bring a single man or woman to our shores? Has it even adopted the most ordinary means for *pointing* emigration hither? Nay, has it taken the trouble to make known in the dense communities of the old country where and what British Columbia is? Nothing of the kind. Their state-craft aspires not beyond the mechanical instinct of squeezing the milk from the cocoa-nut; and so long as it yields milk enough for their own purpose what care they for the rest? Just look at sober facts as they exist around us. Humanity, we are told, is pouring in through the "Golden Gate" at the rate of five thousand souls a month! What facilities have we for diverting even the tiniest streamlet of that vast wave to our own thirsty soil? What effort has been put forth with that especial view? Not a steam[er] [or] a sailing vessel, not even a si[ngle ca]noe is to be found in our inter[ior] [on] the route! There *is* a steamer o[n] [the] route; but it belongs to peopl[e w]ho have more interest in keeping population away from us than in bringing it here. A *steamer*, did we say? An old rotten hulk, upon which none save madmen would risk their lives. This apology for a steamer is on the route, making a trip a month, or three trips in two months, according as the tide drifts her onward; and for such an adventure, for a week's risk and discomfort, a man must pay as much, or nearly so, as it costs for a passage from New York to San Francisco, although in one case the distance is eight thousand miles and in the other only eight hundred! To this old hulk is intrusted the entire interest and fortune of the Colony, in so far as immigration and postal communication are concerned. Our Government has sent the destiny of British Columbia to sea in an old, unseaworthy hulk, owned by foreigners whose interest it is to mar both, and who are most effectually conserving that interest. How long is British Columbia to be the mere plaything of wind and wave—the sport of Neptune, in an old, rickety wash-tub? How long are we to be the sport of knaves and a bye-word amongst our neighbors? Let the Government arouse itself to a sense of responsibility and to the exigencies of the hour; or let it retire, exclaiming, in the words of Macbeth,

"I am afraid to think what I have done!
Look on't again I dare not."

THE WAY THE FRENCH DO IT.

John Macgregor saw the Empress of the French bathing, and thereupon wrote the following:—British modesty urged a quiet retreat, but French system being different, we spectators to the number of some hundreds were ranged along the sands in two long lines, with a narrow lane clear between, and grave gendarmes keeping the ranks. The usual proceedings one sees at French bathing towns were all in action round about us. Ladies drest to the highest pitch, mingled with others in bathing costume. Gentlemen walking quite composed and dripping wet with ladies just come out of the sea and just going in again. Young girls in canoes boldly paddling and gaily upsetting the little craft, while they swam alongside. Rafts with men and women, half-floating as they held by the sides, and chattered and basked in the sun. All this difficult interlude on dry-land manners was conducted with perfect decorum, a telling lesson to Britons who bathe. Perhaps, however, we should not like to see our Royal family follow the example of the next scene. First there came out of the Imperial Villa a number of tall liveried footmen, each with a tray or basket piled up high with feminine finery, and this procession wound its way to two pretty little tents hard by the sea. Next there appeared the Empress and four maids of honor, who came also to the tents, the Empress going alone into one with a tasteful blue and silver drapery round it. See, now the ladies emerge from their disrobing rooms, and walk slowly down to the water between the double line of inquisitive but respectful visitors. Each lady has a coat, vest and trowsers of black silk with the neatest of little boots, and the most winning of large-brimmed black straw hats—that of the Empress being trimmed with a narrow band of red. When they reached the water five big fellows approached, all dressed in red flannel. These bathing men each proceeded to tie an empty gourd like a water-bottle, a sort of life-preserver, round the waist of a lady, and then, first politely bowing, he lifted the lady in his arms, as a nurse catches up a little child, and so with his fair burden he marched into the waves. When they were at about four feet deep, the man allowed the lady to float on her back, and with his arms under her arms he supported her as each wave rose and fell. All the time of these strange doings there was a large boat close to the merry party, and with several men in it, who kept beating the water with long poles—What is that for? To keep away the sharks. Such is Majesty afloat. Yes, they do these things better in France!

DISSOLUTION OF PARTNERSHIP.

THE Partnership hitherto existing between GEO. C. CLARKSON and T. N. HIBBEN & Co. in New Westminster, under the name of G. C. CLARKSON & Co., is this day dissolved by mutual consent.

The business will, in future, be carried on by GEO. C. CLARKSON, who will collect all accounts due the Firm and pay all the debts.

GEO. C. CLARKSON,
T. N. HIBBEN & Co.

Witness, HUGH NELSON.
New Westminster, June 20th, 1868.

New Advertisements.

S.T-1860-X.

A great French Physician says: "More than half the disease in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the Stomach and Blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the Body, and breed disease." Now, it is a fact, positive and well known, that there is no such bulwark and assistant for the Stomach as

PLANTATION BITTERS.

This splendid Tonic is now used by all classes of people for every symptom of a "Stomach out of order." The secret of it is this: Plantation Bitters are a certain to correct the juices of the Stomach, set all its machinery at work, and enable it to resist and throw off the approaching danger. The tendency of the operations of Nature is always towards a cure; all she needs is a little assistance at the proper time. How much more reasonable and sensible it is to help her along with a gentle yet powerful Tonic, than to deluge and weaken and defeat her curative processes with poisonous drugs and fiery mixtures which only stupify and plant the seeds of disease and death.

Important Certificates.

"* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life."
Rev. W. H. WAGGONER, Madrid, N. Y."

"* * * Thou will send me two bottles more of thy Plantation Bitters. My wife has both greatly benefited by their use. Thy friend, ASA CURRIN, Phil., Pa."

"* * * I have been a great sufferer from Dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me."
Rev. J. S. CATHORN, Rochester, N. Y."

"* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect."
G. W. D. ANDREWS,
Superintendent Soldiers' Home, Cincinnati, O."

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted Nature's great restorer.

The public may rest assured that in increase will the perfect pure standard of the PLANTATION BITTERS be departed from.

Every bottle bears the fac-simile of our signature on a steel-plate engraving, or it cannot be genuine.

Any person pretending to sell PLANTATION BITTERS *in bulk or by the gallon, is a swindler and imposter. Beware of refilled bottles. See that our Private Stamp is* UNMUTILATED, *over every cork.*

Sold by all Druggists, Grocers and Dealers throughout the world.

P. H. Drake & Co., NEW YORK, SOLE PROPRIETORS.
Rodington & Co., 416 and 418 Front St. San Francisco,

Agents for California and Nevada.

FLEAS.

LYON'S MAGNETIC INSECT POWDER is sure and certain death to everything of the Insect species—Fleas, Roaches, Mosquitos, Ants, Bugs.

IT KILLS INSTANTLY.

What is peculiarly surprising in regard to this article is, that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It can be inhaled or eaten with impunity. It bears the testimony of eminent disinterested chemists that it is

FREE FROM POISON.

No article has ever given such positive satisfaction in its use.

Its reputation is well known. It is easily and readily used—Directions accompany each flask. Beware of counterfeits.

The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and dealers on Pacific Coast.

MEXICAN MUSTANG LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered.

No compound has ever been invented so useful and efficacious in curing

RHEUMATISM, SORE THROAT,
STIFF & WEAK JOINTS, BURNS,
BRUISES, EAR ACHE,
SPRAINS, FRESH CUTS OR WOUNDS,
SWELLINGS,

Or any other complaints requiring external application.

FOR HORSES,

It is an indispensable and valuable remedy in all cases of Spavin, Splint, Ring-bone, Wind-galls, Bruises, Strains, &c.

It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.

All genuine is wrapped in steel plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the PRIVATE U. S. Stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap stone plate label. LOOK CLOSELY!

Sold by all Druggists and Stores in every town and mining camp on the Pacific coast.

WEDNESDAY, JULY 15, 1868.

CONFEDERATION.

No man of sense can read even the meagre outline given in the *Sentinel* of the speeches delivered at Barkerville, on the 1st inst., without being impressed with the fact that there is a large amount of sterling talent and good sense in Cariboo, that the people there know what they are about, and that they "mean business" on the question of Confederation. We cannot resist the temptation of giving a sample. The following is from the speech delivered by Mr. J. Spencer Thompson, an old resident, and intimately associated with our earlier political struggles, having represented the Hope District in the Reform League of 1861:—"There can be no question as to the almost unanimous feeling throughout the colony in favor of Confederation. Public meetings have been held everywhere, from the mauntains to the sea, from Victoria to Cariboo. The entire press of the colony, whatever their opinion on other subjects may be, holds but one on this. Even the Government has declared itself in its favor; but though the Legislative Council of 1867 passed a resolution in favor of Confederation, the official members in the session of 1868 annulled that resolution on the ground that delay was necessary! Delay! delay for what? To enable them to retain their offices a little longer, and stave off for a year at least the inevitable event which must seal their doom. Will you then quietly submit to be treated with such indignity? Will you by keeping silence enable the Government to point to that fact as an evidence that you tacitly endorse their actions? Shall we have Confederation or not? (Loud cries—'Yes! yes!) Well, then, I call upon you with one accord to unite, bury all sectional feelings, and show by your actions that the people of this colony—English, Irish, Scotch, Welsh, Canadian, and also our friends of other nationalities—are all in favor of this great object. Show the Government of Great Britain that you are in earnest, and you must obtain what you desire. Demonstrate that you will no longer submit to be treated as serfs in this age of progress; that you will not camly surrender your inalienable birthright of liberty as British subjects. (Loud applause.) See the magic influence that that name carries with it to-day. An African savage monarch imprisons a few British subjects, and though protected by almost inaccessible mountains in his stronghold—although the armies of Greece and Rome in their palmiest days had been foiled in attempting to overrun the same territory, a brief campaign has laid the tyrant Theodore in the dust, and British arms have vindicated British honor. What must be the feelings of those ransomed captives on first setting foot again on their native shore? Will they not fall on their knees and cry with rapture, "Thank God, I am a British subject?" And shall we, then, while boasting that glorious appellation, submit any longer to the present system of oppression? (Cries—'no, no!) Some parties say they care nothing about this matter; all they want is a good paying claim. We all want that; but many of us have tried to get one for the last five or six years in vain, and we may have to wait as many more. So, while we are waiting, let us unite and endeavor to ameliorate our condition. Make this a national, not a sectional issue. Recollect our common origin, our common flag, and devote your energies to furthering the glorious cause of Confederation, and perhaps when many of us get ready to leave this Colony we may enjoy a journey across the plains, drawn by the mighty iron horse, while the herds of buffaloes fly in terror before him across the prairies, and his shrill whistle reverberating through the depths of the Rocky mountains startles the eagles from their eyries." It must, one would imagine, be tolerably clear to the officials by this time, that they committed an egregious error in recording their votes against Confederation last Session. It is simply absurd to imagine that they can avert the change. To place themselves in antagonism to a popular political change which is *inevitable*, and that, too, upon the most selfish and unpatriotic ground that it is possible to conceive of, is to exhibit a lack of judgment one could hardly be quite prepared to meet with, even from that quarter. Indeed, it would be impossible for the officials to adopt a course better calculated to precipitate the very event they deprecate and to insure that it will sound their deathknell. We could have wished it otherwise. How much more pleasing it would have been to have witnessed the Government taking the lead in this movement, and thereby establishing itself in the confidence and affections of the Colonists. How much better would it have been for the officials themselves, when the change does come, as come it assuredly will. But they were blindly determined to take their own course; and it is now seen how their puny and ill-judged attempt to avert Confederation has aroused the Colonists, and given the good cause a life and strength which it might not otherwise have attained. The official vote of last Session was intended to obstruct the movement; but it bids fair to have the contrary effect.

"There is a Providence that shapes our ends,
Rough hew them how we may."

FROM CARIBOO.

We condense the following from the *Cariboo Sentinel* of the 6th inst.:—

MINING INTELLIGENCE.

WILLIAMS CREEK.

Wash-ups for the week:—Forest Rose, 103oz.; Lillooet, 60oz.; Raby, 50oz.; Baldhead, 60oz.; Cariboo about wages; Sheepskin, 25oz.; Aurora, 35 oz.; Welsh, about wages; California, 40oz. Two hydraulic companies have commenced to wash up; the Cornish co. 88oz. for the week. The Wilson co. washed up for the two last weeks, 60 and 90 oz. respectively.

STOUT GULCH.

The Floyd co. washed up 60 oz. for the week; the Alturas did not clean up; the Taft Vale, 200oz.; the Jenkins, 75oz.; the Mucho Oro, 58.

CONKLIN GULCH.

The Reed co. and the Renfrew are paying wages.

M'ARTHUR GULCH.

The Try-again co. is taking out good pay, and the New Brunswick co. wages.

LOWHEE CREEK.

The Calavaras is still paying well at the rate of 150oz. per week.

BEGGS GULCH.

Two companies are making wages.

MOSQUITO GULCH.

We are witout our usual weekly report from Mosquito and Red Gulches, but we learn that the Minnehaha declared a dividend of $204 to the interest for the week, and the Tom and Jerry cleaned up 23oz. The other claims have done as well as usual.

(*From the Sentinel of 2d.*)

STRIKES.—A company of Cornishmen struck a prospect of $1 25 to the pan, on Martin Gulch, on Tuesday evening. Quite a number rushed to the new strike, and in a few hours the whole creek was staked off. The Hiawatha co. bottomed their shaft on Tuesday, at a depth of 75 feet, and found the bed-rock pitching towards Red gulch. They got a prospect of 3oz. on bed-rock. The Never Fail co. got their wheel running yesterday, and commenced sinking. Tom and Jerry co. have commenced work again. The Hiawatha claim helps to drain their shaft. The Morning Star Co. washed up their ground sluice bed yesterday, preparatory to laying the sluice-boxes, and took up about 200 ounces of the Oro.

MISCELLANEOUS INTELLIGENCE.

On 28th June, Robert Buddle, a native of Scotland, aged 29 years, died at the hospital, of paralysis. The deceased had been at the hospital about one month, having been brought from Keithley creek in a helpless condition. The celebration on Dominion Day was a most enthusiastic demonstration. Resolutions were past censuring the local Government for obstructing Confederation. Several very able speeches were made, the principal speakers being Dr. Carrall, Mr. Rabbitt, Mr. J. Spencer Thompson, Mr. Booth and Mr. McLaren. The programme of sports was complete, and, altogether, the people in Cariboo would appear to have fairly carried off the palm, as far as celebrations in the Colony are concerned, for this year, at least.

THE NATIVE AUSTRALIAN CRICKETERS.—The Parmatta, Capt. Williams, is daily expected to arrive from Sydney with the Aboriginal Black Eleven from Australia. Before sailing the Black Eleven played a match with an eleven of the Army and Navy, with Caffyn in, in the presence of his Royal Highness Prince Alfred, and although the match was not played out, the blacks had much the best of it, having scored in their first innings 237 runs against 64 on the part of their antagonists. The names of the Aborigines are Bullocky, Tiger, Red Cap, Mullagh, Cuzens, King Cole, Dick-a-Dick, Peter, Twopenny, Jim Crow, and Lawrence. At the conclusion of the match with the Army and Navy eleven, the blacks displayed their athletic powers to Prince Alfred—Mullagh jumped 5ft. 7 in. running, and Cuzens 4ft. 7in. standing. Dick-a-Dick threw a cricket ball 117 yards, and then exhibited marvellous dexterity in defending himself against numerous expert throwers, who pelted him with cricket balls at a range of but 20 yards, using in his defence, we are told, only a small shield and "a liangle"—whatever that may be. The Aboriginal Black Eleven are to play the first public match at the Oval ground on Monday and Tuesday in the Derby week.—*English Paper.*

MEDICINES.

decay. The scrofulous contamination is variously caused by mercurial disease, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: **King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses,** and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. Those cases are purposely taken from all sections of the country, in order that every reader may have access to some one who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves its victims far more subject to disease and its fatal results than are healthy constitutions. Hence it tends to shorten, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is composed of ingredients, some of which exceed the best of *Sarsaparilla* in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lurk within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S

CHERRY PECTORAL,

The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.

AGRICULTURAL EXHIBITION.

1868.

The General Committee of the New Westminster District Agricultural Society, having decided upon holding an Exhibition during the first week in October, now submit the following List of Articles for which Prizes will be given. They hope shortly to be able to announce the amount of such prizes.

All will be allowed to exhibit; but only Subscribing Members will be eligible to compete for prizes.

As it is desirable that the Exhibition should be rendered as complete and attractive as possible, any products of the Colony may be exhibited in quantities smaller than those prescribed in the list. Such articles will be entitled to Honorable Mention, if adjudged worthy.

CEREALS.

1. Wheat, (Fall,) best, 2d and 3d best, ½ bushel, from not less than one acre.
2. Wheat, (Spring,) same conditions as Fall.
3. Oats, (Black,) best and 2d best, ½ bushel, from not less than one acre.
4. Oats, (White,) best, ½ bushel, from not less than one acre.
5. Barley, best and 2d best, ½ bushel.
6. Indian Corn, best and 2d best, 12 cobs, sorts.
7. Buckwheat, best, ½ bushel.
8. Peas, (Field, White,) best and 2d best, peck.
9. Peas, (" Cold,) " " "
10. Beans, (Field,) best and 2d best peck.
11. Rye, best sample.
12. Clover Seed, [Red,] best and second best, ½ lb.
13. Clover Seed, [White,] " " "
14. Timothy Seed, best and 2d best, ½ lb.
15. Rye Grass, [Perrenial,] best & 2d best, ½ lb.
16. Rye Grass, [Italian,] " " "
17. The Best Variety of Cereals.

ROOTS & VEGETABLES

Potatoes, Common White, best and 2d best of each, ... 20lb
" Kidneys, " " " "
" Blue, " " " "
" Largest, " " " "
Turnips, Swedes, best and 2d best 2
" Aberdeen, " " 2
" White, " " 2
Carrots, Red, best and 2d best 6
Parsnips, White, " " 6
Mangold Wurzel, Long red, best & 2d best 6
" " Globe, " " 3
Cabbage, Drumhead, best and 2d best.

HORTICULTURAL.

Peas, in pods, best and 2d best ..... 2 quarts
Beans, " Dwarf, best & 2d best, ... 1 quart
" " Runners, " " ..... 1 quart
Tomatoes ..... best plateful
Onions, Red, best and second best ..... dozen
" White, " " ..... dozen
Beets, Red & White, best and 2d best 4
Pumpkin, best and 2d best ..... specimens
Squash, " " " "
Vegetable Marrow, best and 2d best " "
Melons, best ..... " "
Cucumbers, best ..... " "
Cabbages, Early, & Late, best & 2d ..... " "
" Red, " " " "
Cauliflower, best and 2d best ..... " "
Kale, best and 2d best ..... " "
Celery, best and 2d best ..... 3 sticks
Hops, best and second best ..... lb or vine
Tobacco, best ..... sample
Flowers, best ..... bouquet

FRUITS.

Apples, (Fall,) best and 2d best 12
" (Winter,) " " 12
Pears, (Fall,) " " 12
" (Winter,) " " 12
Plums, " " 12
Peaches, " " ..... Plateful
[Slipstone and Clingstone.] ..... Plateful
Quinces, best and 2d best ..... Dozen
Grapes, " " ..... Plateful
The Best Variety.

DAIRY PRODUCE.

Butter, [Fresh,] best, 2d and 3d best. Plateful
" [Salt,] " " " Firkin
Cheese, " " " 1
Eggs, [Fowl,] ..... Heaviest Dozen
" [Duck,] ..... Heaviest Dozen
Fowls, [Of each variety,] best and 2d best ..... Pair
Ducks, best and 2d best ..... Pair
Geese, best ..... Pair
Turkeys, best and 2d best ..... Pair

FISH.

Salmon, [Spring,] best and 2d best ..... Barrel
" [Suckeye,] " " ..... Barrel
" [Preserved in tin or wood,] best and 2d best ..... Sample

Spirits, " ..... Sample
Ale, Beer, and Cider, best ..... Sample
Mineral Specimens of all kinds.
Fancy Needlework.
Indian Manufactures, Curiosities and Relics.
Flax, best ..... Sample

The British Columbian.

WEDNESDAY, JULY 15, 1868.

THE AGRICULTURAL EXHIBITION.

The list of articles for which prizes will be offered at the Exhibition, in October, has been published. It will be seen that only members of the Society can compete for prizes, although all are invited to contribute to the completeness and attractiveness of the exhibition by sending in specimens. Let us hope that this condition of membership will cause none to stand aloof. We are anxious to believe that there is not a man in the District, or out of it, for the matter of that, who does not feel sufficient interest in helping forward any movement having for its object the good of the agriculturists, to be willing to pay his $2 50, even if he had no intention of participating in the direct privileges of membership. As for the farmers themselves, of course everyone will duly qualify himself, and do his part towards making the approaching Exhibition a success, in the broadest and highest sense of the word. Last year it was wonderful how many excellent samples were collected upon so very short notice. Everybody was pleased with what they saw. Strangers were astonished. But there was not that attendance of the farmers which one had a right to expect; nor were the staple products nearly as fully represented as they should have been. This year there will be no excuse as to timely notice. The District will be, as it were, placed on its trial, and every farmer should come forward with the best evidence he can bring. If every farmer will but do his part, there need be no misgiving as to the verdict.

FROM YALE.

The str. Reliance, Capt. Irving, returned from Yale, on Monday, bringing a number of passengers, Barnard's Cariboo Express and some fat cattle for Mr. Dickinson. We compile the following summary from the *Examiner*:—The celebration of Dominion Day has developed a strong Dominional feeling, and henceforth the 1st July will be the great festival day of the year.——The road tolls collected at Yale during the half year amount to $16,237 07, against $12,970 14 in the same period last year. For last June they were $4,623 07; for June 1867, they were $3,769 66.——Arrangements are being made for holding an Agricultural Exhibition at Yale this fall. At a meeting held in Mr. Sutton's Saloon, the following Committee was organized:—Mr. Charles Evans, Chairman; Mr A. Barlow, Secretary; Mr. J. Reece, Treasurer; and Messrs. Sutton, Gladwin, Killiy and Havelock, members. Mr. W. H. Sutton has, with his usual generosity, placed his large building, on Douglas street, at the service of the Committee for the Exhibition.——A Buckeye mowing machine was forwarded on to Mr. S. M. Nelson, of Bridge Creek, last week. ——A quantity of material for the new steamer designed to run between Big Bar and Quesnelmouth, was sent forward a few days ago.——Goods to the extent of 134,000lbs were forwarded out of Yale last week.

BEAT IT WHO CAN!—The two branch Banks in Cariboo are sending down treasure at the rate of one hundred and fifty thousand dollars a month, although the most productive part of the mining season is yet to come. It is usually reckoned that about two-thirds of the gold raised in Cariboo passes down through that channel. Proceeding upon that basis, gold is being raised at the rate of two million seven hundred thousand dollars a year in the single gold field of Cariboo! Estimating the number of actual miners at one thousand, they are thus raising gold at the rate of $2700 to the man! We venture to say that in no other mining country has such a high average been reached. Yet the fact is indisputable. The figures are there to speak for themselves.

PRETTY GOOD.—The *Cariboo Sentinel* says that the 1st inst. being the day on which Trades Licences fell due, about $5000 were paid into the Treasury at Richfield.

"THE SISTERS."—They are not "Sisters of Mercy," but the reverse, of whom we treat—the adamantine "Sisters" of the Fraser, who threaten with death and destruction all who go beyond Hope! Our Yale contemporary, alludes to the Chief Commissioner's estimate of fifty thousand dollars for the removal of the "Sisters." We repeat that it is only necessary to remove one, and that to low water mark. Unless hampered and cloged with foolish and unnecessary restrictions and conditions, the work can be done for from two to three thousand dollars. We have excellent authority for what we assert. But, even should it cost twice that sum, is the Government going to higgle about a few hundred dollars in a matter where life and property are so clearly at stake? Let there be no throwing of dust in the matter. Let tenders be properly invited for what work is necessary and no more, and the question of cost will soon be set at rest. The Government cannot evade the responsibility by "talking rot" about the expense.

Our readers have observed that we rarely praise patent medicines, and that we advertise only the very best of them. But now, the remarkable recovery of Mrs. Rice, of Canastota, from her distressing and almost helpless scrofulous disease, which is known throughout the community, and unquestionably the effect of Ayer's Sarsaparilla, leads us to publish without reserve the remarkable efficacy of this medicine. We do this in the interest of the afflicted. Any remedy which can so effectually "raise one from the dead," should be universally known; and we wish it may be universally as successful as it has been in the case of Mrs. Rice.—*Daily Journal*, Syracuse.

LILLOOET INDIGNANT.—The Yale *Examiner* says that the Lillooet people are indignant at the Government for overlooking their interests in neglecting to expend the Legislative grant on the trail leading to Lytton. What about their Representative? Why doesn't he jog the memory of the Executive? The people of Lillooet have indeed just cause of complaint; but they would do well to reserve a share of indignation for their Representative.

A MOVE IN THE RIGHT DIRECTION.—We are always pleased to be able to chronicle any improvements or changes for the better in this thriving little city of ours. We have just heard of the amalgamation of two well-known Houses here viz. Messrs. Clute and Clarkson, who have entered into a Co-partnership, and are now prepared to furnish every description of Goods in the Dry Goods, Clothing, Boots, shoes, Grocery and Stationery lines, at very reasonable prices. We bespeak for them the liberal support of a discriminating public.

THE RACE between the "Golden Arrow" and the "Fairy" came off at 3 o'clock on Saturday. The number of spectators was large and much interest was evinced in the match. Very considerable sums of money were staked on the result, although towards the start, those desiring to bet on the "Golden Arrow" experienced some difficulty in finding takers. Notwithstanding some dispute as to a slight collision immediately after the start, claimed as a "foul" on behalf of the "Fairy", the "Golden Arrow" was declared to be the winner.

THE FOURTH OF JULY IN CARIBOO.—The people on Williams Creek duly celebrated the 4th of July. Mr. E. C. Parsons read the Declaration of Independence. There were also sports and athletic games, and we see the Registrar of the Supreme Court, Mr. Pooley, carried off some of the best prizes, including the first prize ($20) for running high jump and the first prize ($30) for the hurdle-race.

COMPLETION OF THE TELEGRAPH.—Mr. Buie promised to have the line to Barkerville in operation by the 10th inst., and he had it done by the 5th! Cariboo is, therefore, in telegraphic communication with the civilized world. A congratulatory dispatch was sent to the Minister of State of Canada and one to Victoria.

SERIOUS MARINE DISASTER.—The U. S. Steamship Swanee, (Double Ender) struck a rock near Fort Rupert and was a total loss. The crew were all saved. Captain Cooper, who was piloting her, returned to Victoria in a canoe, late on Monday night. The Suanwee left Victoria on the 5th inst. for Sitka.

THE PROTEST.—H. Holbrook, Esq., received a letter from His Excellency the Governor last evening, informing him, as Chairman of the public meeting, that the Memorial protesting against Capt. Richard's letter, to Mr. Fraser had been received by the Duke of Buckingham.

ACCIDENT ON THE CHELSEA.—One of the hands on the ship Chelsea, now loading at Moody & Co.'s mills, had his leg severely bruised on Monday. Dr. Black was called out, and found on examination thet the limb had escaped fracture.

FROM VICTORIA.—The str. Enterprise, Capt. Swanson, returned from Victoria last evening, bringing freight and passengers, and the Eastern mail which came by the str. California.

TELEGRAPHIC SUMMARY.

European dates are to the 8th inst. Despatches from Madrid of 7th inst. indicate serious political troubles in Spain, Gen. Dulee, Captain-General of Cuba, Duke de Taldre and five other gentlemen have been placed under arrest; warrants have been sent for the arrest of three other General officers of high rank; it was supposed that a dangerous and wide-spread conspiracy had been discovered, and that the arrests were the result. To-day's advices represent a movement having been personated amongst some of the leading officers of the army, which had for its object the placing of Don Autoney, Duke of Monthenier, brother-in-law to the Queen, at the head of the Government. He has been requested to leave the country. Additional arrests continue to be made in nearly all parts of Spain daily. It is understood that the British Government is ready to ratify the naturalization treaty with the United States. In the House of Lords on the 8th, the petition of the people of Nova Scotia was presented, praying Parliament to allow them to separate from the New Dominion of Canada. Sir Morton Peto passed through bankruptcy and has been discharged. John Bright arrived at Dublin on the 8th on a visit to George Peabody. On reaching Limerick he was received in an enthusiastic manner. A dispatch from Shanghai represents that the revolution in Japan has assumed a new phase. It is reported 12 of the most powerful Daimos formed a combination against the Mikado. These complications threaten to postpone indefinitely restoration to tranquility in that empire.

Eastern States news is to the 8th inst. The 8th article in the Democratic Platform denounces the usurpation and tyranny of the Radicals in the conduct of the war; thanks Andrew Johnson for resistiog the aggressions of Congress, and demands the payment of the public debt as rapidly as possible. In Convention a resolution of confidence and love entertained by that body for Gen. McClellan was received with tremendous cheering and unanimously adopted. A resolution of thanks to President Johnson for removing Stanton was also passed. The State Republican Convention nominated John A. Griswold for Governor over Horace Greely. In the House Stevens moved for a Committee to report on articles of Impeachment. On the 8th ground was broken on the Atlantic and Pacific Railroad, at Springfield, Mo., with imposing ceremonies. A large force has been placed at work. It is intended to connect St. Louis by the 35th parallel via Albuquerque.

California dates are to the 10th inst. The steamer Constitution arrived from Panama on the 9th. In Lima the number of deaths from yellow fever had fallen to 20 per diem. Considerable damage had been done by earthquakes at Ecuador. In California the Democrats were firing a salute for Seymour and Blair. The Republicans were equally jubilant.

Arrived, July 8—Ship Eldorado, Port Ludlow; ship Elizabeth Kimball, Teekalet; ship Coquimbo, Port Madison; bark Florence, Seabeck; bark Amazon, Port Blakely.

July 9—Ship Dublin, Seabeck; ship Mary Glovor, Port Discovery; bark Iconium, Seattle.

Sailed July 9—Ship Flying Eagle, Nanaimo.

SAN FRANCISCO, July 10—Legal Tenders quoted at 71 buying, and 71¼@71½ selling, offering freely.

Flour—Market steady.

Wheat—Market shows signs of weakness; sales include 800 sacks, choice, $1 90; 5100 sacks, good shipping, $1 80.

Barley—Firm $1 90@$2.

Oats—Sales, 300 sacks, good, at $2 35; other qualities jobbing at $2 20@2 30.

Arrived—Steamer Pacific from Portland; bark Gem of the Ocean, Burrard Inlet; bark Christopher Mitchell, Port Madison; bark Scotland, Seattle; barkentine Constitution, Teekalet.

Sailed July 9—Schr. Ocean Pearl, Port Blakely. July 10th, barkentine Emma Augusta, Port Madison.

ALL OVER

The world people of sense and judgment have learned to use

PLANTATION BITTERS.

Dyspepsia, with its symptoms, Headache, Heartburn, Feverish Lips, Bad Breath, Sallow Complexion, &c., can be cured by using PLANTATION BITTERS.

This is the most successful tonic of the age. Young, middle-aged and old, are delighted with its effects.

The first trial always has a marked good effect.

No change of diet is necessary. Eat all you wish, of the best and most nutritious food.

It is the greatest cure ever known for an overloaded and distressed stomach, which it relieves in a few moments.

We know that we have the best and most popular medicine in the world. We are not afraid to show what it is composed of.

PHYSICIANS ARE COMPELLED TO RECOMMEND IT.

CALISAYA BARK has been celebrated for over two hundred years, and was sold during the reign of Louis XVI., King of France, for the enormous price of its own weight in silver. It is remarkable for Dyspepsia, Fevers, Weakness, Constipation, &c.

CASCARILLA BARK.—For Diarrhea, Colic, and diseases of the stomach and bowels.

DANDELION.—For inflammation of the Loins and Dropsical Affections.

CHAMOMILE FLOWERS.—For enfeebled digestion.

LAVENDER FLOWERS.—Aromatic, stimulant and tonic—highly invigorating in nervous debility.

WINTERGREEN.—For Scrofula, Rheumatism, &c.

ANISE.—An aromatic carminative; creating flesh, muscle and milk; much used by mothers nursing.

Also clove-buds, orange, caraway, coriander, snake-root, &c.

S.T-1860-X.

Another wonderful ingredient is a Spanish ...; imparting beauty to the complexion and brilliancy to the mind, is yet unknown to the commerce of the world, and we withhold its name for the present.

With this recipe before the community, and evidences of effects meeting them on all sides, the success of DR. DRAKE stands founded upon the rock of truth. Almost every family has some case of suffering which the PLANTATION BITTERS will alleviate and cure.

They are recommended by the highest medical authorities, and are warranted to produce an immediate beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.

NOTICE.—Any person pretending to sell Plantation Bitters in bulk or by the gallon is a swindler and imposter. It is put up only in our log cabin bottle. Beware of bottles refilled with imitation deleterious stuff, for which several persons are already in prison. See that every bottle has our United States stamp over the cork unmutilated, and our signature on steel plate side label.

Sold by respectable dealers throughout the habitable globe.

P. H. Drake & Co., New York, Sole Proprietors.

Redington & Co., San Francisco, Agents for California and Nevada.

MEXICAN MUSTANG LINIMENT.

The merits of this Liniment are well known. Its effects are instantaneous, soothing, and wonderful.

Cuts, bruises, sprains and swellings, are so common, and certain to occur in every family, that a bottle of this Liniment is the best investment that can be made.

It is more certain than the doctor—it saves time in sending for the doctor—it is cheaper than the doctor, and should never be dispensed with.

READ THE FOLLOWING.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sores, Scratches, or Galls on horses. Our men have used it for Burns, Bruises, Sores, Rheumatism, &c. and all say it acts like magic. J. W. HEWITT,
Foreman for Amer'n, Wells, Fargo's & Harnden's Express

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week after she commenced using your celebrated Mustang Liniment."
Gloucester, Mass., Aug. 1, 1865. ED. SEELY.

Quick and sure it certainly is. All genuine is wrapped in steel plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the PRIVATE U. S. stamp of DEMAS BARNES & Co., over the top.

An effort has been made to counterfeit it with a cheap stone plate label. LOOK CLOSELY!

Sold by all Druggists and Stores, @ 35 & 50cts. and $1

LYON'S FLEA POWDER.

It is well known that Lyon's genuine Magnetic Powder will perfectly destroy everything in the shape of fleas, ticks, bedbugs, roaches, &c.; that it is perfect poison to the insect tribe, but entirely harmless to the human species and domestic animals.

Bedbugs, Roaches, Ants, etc., are in every house. This Powder is their natural death. It should be in every cupboard.

JOHN L. ROME, Esq., Superintendent of the New York City Hospital, says: * * * "It is the only SURE article we have ever used."

NEW YORK HOTEL PROPIETORS say: "We have used

LYON'S MAGNETIC POWDER

for exterminating insects and vermin, with entire satisfaction.

COLEMAN & STETSON, Astor House.
S. T. COZZENS, American Hotel.
ACKER & TREADWELL, St. Nicholas Hotel.
S. LELAND & CO., Metropolitan Hotel."

Testimony of this character might be added to any length. Wherever it is used it advertises itself.

The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all druggists and general storekeepers in every town and mining camp on the Pacific Coast.

ADDRESS

TO THE

NERVOUS AND DEBILITATED

WHOSE

SUFFERINGS HAVE BEEN PROTRACTED,

AND WHOSE CASES

REQUIRE PROMPT TREATMENT TO RENDER EXISTENCE DESIRABLE.

If you are suffering have suffered, what effect does it produce upon your general health?

Do you feel weak, debilitated, easily tired?

Does a little extra exertion produce palpitation of the heart?

Does your liver, urinary organs, or your kidneys, frequently get out of order?

Is your urine sometimes thick, milky or flocky, or is it ropy on settling?

Or does a thick scum rise to the top?

Or is a sediment at the bottom after it has stood awhile?

Do you have spells of short breathing or dyspepsia?

Are your bowels constipated?

Do you have spells of fainting or rushes of blood to the head?

Is your memory impaired?

Is your mind constantly dwelling on this subject?

Do you feel dull, listless, moping, tired of company, or of life?

Do you wish to be left alone, to get away from everybody?

Does any little thing make you start or jump?

Is your sleep broken or restless?

Is the lustre of your eye as brilliant?

The bloom on your cheek as bright?

Do you enjoy society as well?

Do you pursue your business with the same energy?

Are your spirits dull and flagging, given to fits of melancholy? If so, do not lay it to your liver or dyspepsia.

Have you restless nights? Your back weak, your knees weak, and have but little appetite and you attribute this to dyspepsia or liver complaint?

NOW, READER,

DISEASES BADLY CURED, AND EXCESSES,

Are capable of producing a weakness of the generative organs. The organs of generation when in perfect health, make the man. Did you ever think that those bold, defiant, energetic, persevering, successful business men are always those whose generative organs are in derfect health? You never hear such men complain of being melancholy, of nervousness, of palpitation of the heart. They are never afraid they cannot succeed in business; they don't become sad and discouraged; they are always polite and pletsant in the company of ladies, and look you and them right in the face—none of your downcast looks, or any other meanness about them. I do not mean those who keep the organs inflamed by running into excess. These will not only ruin their constitutions, but also those they do business with or for.

How many men, from badly-cured diseases and excesses, have brought about that state of weakness in those organs that has reduced the general system so much as to induce almost every other form of disease—idiocy, lunacy, paralysis, spinal affections, suicide, and almost every other disease which humanity is heir to, and the real cause of the trouble never suspected, and have doctored for all but the right one?

Diseases of this sort require a Diuretic.

HELMBOLD'S FLUID EXTRACT BUCHU IS THE GREAT DIURETIC, AND IS A CERTAIN CURE FOR

Diseases of the Bladder,
Kidneys,
Gravel,
Dropsy,
Organic Weakness,
Female Complaints,
General Debility,

AND ALL DISEASES OF THE

URINARY ORGANS,

whether existing in male or female.

From whatever Cause originating, and no matter of how long standing.

If no treatment is submitted to, CONSUMPTION or INSANITY may ensue. Our flesh and blood are supported from these sources, and the health and happiness, and that of posterity, depends upon prompt use of a reliable remedy.

HELMBOLD'S EXTRACT BUCHU,

ESTABLISHED UPWARDS OF 18 YEARS,

PREPARED BY

H. T. HELMBOLD,

DRUGGIST, 594, Broadway, New York, and 104 South Tenth st., Philadelphia, Pa.

Price $1 25 per bottle, or Six for $6 50.

CURE IS AT HAND!

HOLLOWAY'S OINTMENT

Scorbutic Eruptions, as Sore Heads and Scrofulous Swellings.

If this powerful Ointment be well rubbed into the parts affected, all skin disease will be speedily overcome. It acts not by repression, but repulsion. It enters the system as salt enters meat, and operates not locally only, but constitutionally purifying the whole system, neutralizing all depraved humours, and affecting a radical and complete cure. The Pills should be taken as an auxiliary to the Ointment, as they are so prepared as to act in unison with it, facilitating and confirming the conquest of the disease.

Diptheria, Ulcerated Sore Throat and Quinsey.

The above complaints have for twenty years been treated with Holloway's Ointment and Pills with complete success. The cures have been so remarkable, speedy and numerous, that these often fatal diseases are more easily cured by these medicines, than even the common sore throat, if taken in time.

The Kidneys, Stone and Gravel.

In these complaints, the Ointment almost acts like a charm, providing it is very effectually rubbed over the regions of the kidneys, which it will penetrate and give almost immediate relief, while the Pills should be taken according to the printed directions, when the most extraordinary cures may be effected by this means.

Bad Legs, Bad Breasts, Scrofulous Sores, and Glandular Swellings.

In such cases the Ointment operates surely and with a rapidity that resembles magic. It should be rubbed into the parts affected, after they have been fomented with lukewarm water. The purifying and curative powers of this marvellous unguent have never failed. Any old sore, wound or ulcer always yields to its influence, and in cases of bad breasts, or milk fevers, its action is wonderful. Glandular swellings may soon be reduced by following the printed directions.

The Action of the Heart. Dropsy.

The last named disease is commonly preceded by irregular action of the heart, and difficult respiration; which symptoms are always severe, and ever go from bad to worse, unless proper means of cure are resorted to. In Holloway's unrivalled Ointment and Pills the dropsical patient will ever find succour; the present relief derived from the use of these remedies is marvellously quick, and perseverance in the application of this famous Ointment, invariably results in a cure. They act with such energy on the circulation and absorbent system, that the dropsical fluid vanishes, and the sufferer finds all the oppressive symptoms daily decline, till natural health returns.

Gout and Rheumatism.

May be cured with the greatest certainty if large quantities of the Ointment be well worked into the complaining parts, and this perseveringly done for some time. It is no use to smear it on the skin only, it must be got into the system. Take as many Pills nightly as will act two or three times during the 24 hours; eschew the use of coffee, and all stimulants. When these complaints are leaving the system, the virulence of the complaint frequently seems to increase.

Indiscretion of Youth.

Sores, ulcers and swellings can with certainty be cured if this Ointment be thoroughly rubbed all round the complaining parts twice or thrice a day, keeping them covered with linen rag spread with the same.

The Pills must be taken according to the printed directions. The blood being in an impure state, perseverance is necessary. From humane motives letters of advice will be answered gratuitously. To save carriage the Pills should be obtained in the neighborhood of the sufferer, and not from Holloway's Establishment.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs,	Chapped hands,	Scalds,
Bad Breasts,	Contracted and Stiff Joints,	Sore Nipples,
Burns,		Sore-throats,
Bunions,	Elephantiasis,	Skin-diseases,
Bite of Mosquitoes and Sand-flies,	Fistulas,	Scurvy,
	Gout,	Sore-heads,
Coco-bay,	Glandular Swellings,	Tumors,
Chiego-foot,		Ulcers,
Corns (soft),	Lumbago,	Wounds,
Cancers,	Piles,	Yaws.
Chilblains,	Rheumatism,	

Sold at the establishment of PROFESSOR HOLLOWAY, 224, Strand, (near Temple Bar) London; and by all respectable Druggists and Dealers in Medicines throughout the civilized world, at the following prices:—1s. 1½d., 2s. 9d., 4s. 6d., 11s., 22s., and 33s., each Pot.

⁂ There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each Pot.

Ayer's SARSAPARILLA,

THE WORLD'S GREAT REMEDY FOR

Scrofula and Scrofulous Diseases.

From Emery Edes, a well-known merchant of Oxford, Maine.

"I have sold large quantities of your SARSAPARILLA, but never yet one bottle which failed of the desired effect and full satisfaction to those who took it. As fast as our people try it, they agree there has been no medicine like it before in our community."

Eruptions, Pimples, Blotches, Pustules, Ulcers, Sores, and all Diseases of the Skin.

From Rev. Robt. Stratton, Bristol, England.

"I only do my duty to you and the public, when I add my testimony to that you publish of the medicinal virtues of your SARSAPARILLA. My daughter, aged ten, had an afflicting humor in her ears, eyes, and hair for years, which we were unable to cure until we tried your SARSAPARILLA. She has been well for some months."

From Mrs. Jane E. Rice, a well-known and much-esteemed lady of Dennisville, Cape May Co., N. J.

"My daughter has suffered for a year past with a scrofulous eruption, which was very troublesome. Nothing afforded any relief until we tried your SARSAPARILLA, which soon completely cured her."

From Charles P. Gage, Esq., of the widely-known Gage, Murray & Co., manufacturers of enamelled papers in Nashua, N. H.

"I had for several years a very troublesome humor in my face, which grew constantly worse until it disfigured my features and became an intolerable affliction. I tried almost every thing a man could of both advice and medicine, but without any relief whatever, until I took your SARSAPARILLA. It immediately made my face worse, as you told me it might for a time; but in a few weeks the new skin began to form under the blotches, and continued until my face is as smooth as any body's, and I am without any symptoms of the disease that I know of. I enjoy perfect health, and without a doubt owe it to your SARSAPARILLA."

Erysipelas—General Debility—Purify the Blood.

From Dr. Robt. Sawin, Houston St., New York.

"DR. AYER. I seldom fail to remove *Eruptions* and *Scrofulous Sores* by the persevering use of your SARSAPARILLA, and I have just now cured an attack of *Malignant Erysipelas* with it. No alterative we possess equals the SARSAPARILLA you have supplied to the profession as well as to the people."

From J. E. Johnston, Esq., Wakeman, Ohio.

"For twelve years, I had the yellow Erysipelas on my right arm, during which time I tried all the celebrated physicians I could reach, and took hundreds of dollars worth of medicines. The ulcers were so bad that the cords became visible, and the doctors decided that my arm must be amputated. I began taking your SARSAPARILLA. Took two bottles, and some of your PILLS. Together they have cured me. I am now as well and sound as any body. Being in a public place, my case is known to every body in this community, and excites the wonder of all."

From Hon. Henry Monro, M. P. P., of Newcastle, C. W., a leading member of the Canadian Parliament.

"I have used your SARSAPARILLA in my family, for general *debility*, and for *purifying the blood*, with very beneficial results, and feel confidence in commending it to the afflicted."

St. Anthony's Fire, Rose, Salt Rheum, Scald Head, Sore Eyes.

From Harvey Sickler, Esq., the able editor of the Tunkhannock Democrat, Pennsylvania.

"Our only child, about three years of age, was attacked by pimples on his forehead. They rapidly spread until they formed a loathsome and virulent sore, which covered his face, and actually blinded his eyes for some days. A skilful physician applied nitrate of silver and other remedies, without any apparent effect. For fifteen days we guarded his hands, lest with them he should tear open the festering and corrupt wound which covered his whole face. Having tried every thing else we had any hope from, we began giving your SARSAPARILLA, and applying the iodide of potash lotion, as you direct. The sore began to heal when we had given the first bottle, and was well when we had finished the second. The child's eyelashes, which had come out, grew again, and he is now as healthy and fair as any other. The whole neighborhood predicted that the child must die."

Syphilis and Mercurial Disease.

From Dr. Hiram Sloat, of St. Louis, Missouri.

"I find your SARSAPARILLA a more effectual remedy for the secondary symptoms of *Syphilis* and for syphilitic disease than any other we possess. The profession are indebted to you for some of the best medicines we have."

From A. J. French, M. D., an eminent physician of Lawrence, Mass., who is a prominent member of the Legislature of Massachusetts.

"DR. AYER. My dear Sir: I have found your SARSAPARILLA an excellent remedy for *Syphilis*, both of the *primary* and *secondary* type, and effectual in some cases that were too obstinate to yield to other remedies. I do not know what we can employ with more certainty of success, where a powerful alterative is required."

Mr. Chas. S. Van Liew, of New Brunswick, N. J., had dreadful ulcers on his legs, caused by the abuse of mercury, or *mercurial disease*, which grew more and more aggravated for years, in spite of every remedy or treatment that could be applied, until the persevering use of AYER'S SARSAPARILLA relieved him. Few cases can be found more inveterate and distressing than this, and it took several dozen bottles to cure him.

Leucorrhœa, Whites, Female Weakness, are generally produced by internal *Scrofulous Ulceration*, and are very often cured by the alterative effect of this SARSAPARILLA. Some cases require, however, in aid of the SARSAPARILLA, the skilful application of local remedies.

From the well-known and widely-celebrated Dr. Jacob Morrill, of Cincinnati.

"I have found your SARSAPARILLA an excellent alterative in diseases of females. Many cases of Irregularity, Leucorrhœa, Internal Ulceration, and local debility, arising from the scrofulous diathesis, have yielded to it, and there are few that do not, when its effect is properly aided by local treatment."

A lady, unwilling to allow the publication of her name, writes:

"My daughter and myself have been cured of a very debilitating Leucorrhœa of long standing, by two bottles of your SARSAPARILLA."

Rheumatism, Gout, Liver Complaint, Dyspepsia, Heart Disease, Neuralgia, when caused by *Scrofula* in the system, are rapidly cured by this EXT. SARSAPARILLA.

AYER'S CATHARTIC PILLS

possess so many advantages over the other purgatives in the market, and their superior virtues are so universally known, that we need not do more than to assure the public their quality is maintained equal to the best it ever has been, and that they may be depended on to do all that they have ever done.

Prepared by J. C. AYER, M. D., & Co., Lowell, Mass., and sold by

ADVICE GRATIS!

HOLLOWAY'S PILLS

To Purify the Blood.

These Pills have been placed by the common consent of mankind at the head of all remedies for removing obnoxious poisons from the blood, and cleansing all the tissues of the body. They have saved thousands year after year from falling a sacrifice to the effects of dyspepsia, dysentary, diarrhœa, constipation, liver complaints, &c., a fact attested by myriads of witnesses. Excessive weakness and debility, the warnings of decreasing organic energy and vital decay, are restored and reanimated with vigor and healthful action in every organ throughout the system, by the restorative and exhilirating influence of this medicine.

Female Complaints.

All disorders of the sex, and diseases in every crisis perilous to the life and health of woman, youthful or aged, married or single, may be radically and quickly cured without risk or trouble, by a few doses of these Pills, taken according to the printed directions.

Indigestion with languor and want of energy.

When taking these Pills, rub Holloway's celebrated Ointment over the pit of the stomach, and over the region of the liver, on the right side under the ribs, and you will at once experience a change for the better in your digestion, spirits, appetite, strength, and energy. The improvement, though it may be gradual, will be thorough and lasting.

DROPSY.

The efficacy of Holloway's Pills in dropsy is extraordinary. They act with such peculiar effect upon the system, that the fluids arising from this direful disease are imperceptibly carried off and prevented from any further accumulation. The sufferer regains a buoyancy of spirits and rejoices in a completely renovated constitution; but it is indispensably necessary that the Ointment should be most effectually rubbed into the complaining parts.

Stomach, Liver, Kidneys and Bowels.

Those who suffer from bile and liver complaints, should try the effects of this valuable remedy, a few doses of which will make the sufferer feel elastic and vigorous, removing all impurities, giving a healthy action to the liver; if bilious attacks be allowed to continue, serious casualties may arise, and the sufferer be consigned to a bed of sickness. In all disorders of the kidneys, the Ointment should be well rubbed into the small of the back, once or twice a day; and the Pills taken in unison, will cure any complaints arising from these organs.

Puffy,—Shortness of Breath with Weakness.

Very bad symptoms, which if not corrected, may tend to some serious disorders of the heart, or other vital organs. Eat moderately of solids, take six Pills nightly for some little time; take plenty of fresh air with moderate exercise, and the human machinery will be quickly restored to health and vigor. Try this but for three days only, and the result will be marvellous.

Complaints incident to Children.

All complaints of children may soon be cured if care be taken to purify their blood, correct the action of the liver, and cleanse the stomach and bowels: a few doses of these famous Pills will immediately have the desired effect, particularly if parents be careful to not allowing them to eat of things which they know would be injurious to themselves.

Holloway's Pills are the best remedy known in the world for the following diseases:—

Ague,	Female Irregularities,	Scrofula, or King's Evil,
Asthma,	Fevers of all kinds,	Sore Throats,
Bilious Complaints,		Stone and Gravel,
Blotches on the Skin,	Fits,	Secondary Symptoms,
Bowel Complaints,	Gout,	Tic Douloureux,
	Head-ache,	Tumours,
Colics,	Indigestion,	Ulcers,
Constipation of the Bowels,	Inflammation,	Venereal Affections,
	Jaundice,	
Consumption,	Liver Complaints,	Worms of all kinds,
Debility,	Lumbago,	Weakness from whatever cause,
Dropsy,	Piles,	&c., &c.
Dysentery,	Rheumatism,	
Erysipelas,	Retention of Urine,
